

INTERNATIONAL CONFERENCE ON CANCER SCIENCE AND RESEARCH

November
17-19
2025

Contact us: Email: cancer@mathewsconference.com
Web: <https://cancer.miconferences.com/>
Phone: +1 (312) 462 4448 | WhatsApp: +1 (424) 377 0967

Keynote Presentations (In-person)

Rajvir Dahiya

University of California San Francisco School of Medicine, United States

Title: A novel mRNA genomic technology for precision medicine, cancer diagnosis, prognosis, treatment follow-up

Sergey Suchkov

National Center for Human Photosynthesis, Aguascalientes, Mexico

Title: Personalized and Precision Medicine (PPM) through the view of biodesign-inspired translational research: An option for clinical oncologists, caregivers and consumers to realize the potential of genomics-informed care to secure the human biosafety

Yan-Shen Shan

National Cheng Kung University Hospital, Taiwan

Title: Hypoxia-Fibrosis cycle in pancreatic cancer reveals potential pathways associated with tumor progression and predicts poor prognosis

Thomas J. Webster

Hebei University of Technology, China

Title: Anti-Cancer nanomedicine in humans: 30,000 successful cases and counting

Keynote Presentations (Virtual)

Henrique Manuel dos Santos Faneca

University of Coimbra (CNC-UC), Portugal

Title: Targeted gene and drug delivery nanosystems to hepatocellular carcinoma

Paulo Cesar De Moraes

Catholic University of Brasilia, Brazil

Title: Cell viability assays under radiofrequency application modulated by nanomaterials

Julia Sidorova

Instituto Carlos III de Salud (CIBEREHD), Spain

Title: Information leakage: Types, remedies, and open problems

Oral Presentations (In-person)

Sergey Suchkov

National Center for Human Photosynthesis, Aguascalientes, Mexico

Title: Personalized and Precision Oncology (PPO) to be set up via precision oncology strategy for cancer care team: Developing targeted cancer therapy & advancing personalized cancer care

Salah S. Massoud

University of Louisiana, United States

Title: Copper(II) complexes as potent chemotherapeutic agents for anticancer therapy

Walter Lisch

Johannes Gutenberg University Mainz, Germany

Title: Artificial intelligence (AI) and the examination of the cornea at the slit lamp

Ren-Wang PENG

University of Bern, Switzerland

Title: Lactate dehydrogenase B noncanonically promotes ferroptosis defense in KRAS-driven lung cancer

Sergey Reva

Pavlov First Saint Petersburg State Medical University, Russian Federation

Title: Immunological markers as predictors of unfavorable pathomorphological characteristics, an upgrading, upstaging and risk group increase in prostate cancer patients after radical prostatectomy

Xiya Jia

Zhejiang University, China

Title: Single-Cell and spatial profiling of immune and tumor-Intrinsic mechanisms in response to neoadjuvant radiotherapy plus immunochemotherapy in microsatellite stable locally advanced rectal cancer

Oral Presentations (Virtual)

Janusz Rak

McGill University, Canada

Title: Extracellular vesicle pathways as regulators of tumor-vascular interactions in glioblastoma

Bep Dhaliwal

Patient Advocate, United Kingdom

Title: The power of trust through the eyes of a patient

Alain Chapel

Institute of Radiological Protection and Nuclear Safety, France

Title: From experimental research to clinical trial in the treatment of complication of radiotherapy by stem cells

Constantinos M. Mikelis

University of Patras, Greece

Title: The regulatory role of endothelial RhoA on tumor microenvironment

Shalini Bajaj

Jaipur National University, India

Title: Targeting telomerase for its advent in cancer therapeutics

Tenghua Yu

Jiangxi Cancer Hospital & Institute, China

Title: GPER-driven crosstalk in breast cancer: Bridging drugs resistance and tumor microenvironment remodeling

Wilfred Angie Abia
University of Yaounde, Cameroon

Title: Dietary carcinogens and cancer risk: Knowledge, awareness, and perception of Cameroonians

Oral presentation slots available for both in-person and virtual participation!

Poster Presentations (In-Person)

Xueling Wu
Renji Hospital, China

Title: High level of prevotella melanogenic in the lower respiratory microbiota of checkpoint inhibitor pneumonitis and radiation pneumonitis

Poster Presentations (Virtual)

Chuqi Xia
The Second Affiliated Hospital of Kunming Medical University, China

Title: Vascular endothelial growth factor and colorectal cancer risk: A two-sample mendelian randomization analysis

Nabhan Linda
France Digital University, France

Title: Cardiac coherence: A new approach to oncology medicine

Qing Pan
Huazhong University of Science and Technology, China

Title: Rare bone metastasis of neuroendocrine tumors of unknown origin: A case report and literature review

Elmira Fardi
Islamic Azad University of Tehran Medical Science, Iran (Islamic Republic of)

Title: Bioinformatics analysis of key genes in the PI3K/AKT pathway in head and neck squamous cell carcinoma

Poster presentation slots available for both in-person and virtual participation!
